It's will likely be a lot of people. Two busloads plus a few cars. Probably 40-50 people.

Ed

I'll talk with Wood and see what can be managed. How many folks would be interested?

We have an overview tour of the CTP/GCS planned for the Tour but had planned on not taking the entourage through the plant or the Construction site to avoid impacting the crews and because there are a couple of perches that provide good overviews. I could be persuaded otherwise if you think a up-close tour would be better.
